These Monster Sea Lious Comi to Juckson on Thursday an Friday, Bec. 7th and 8th.

Those monster Sea Lions who require hundreds of pounds of fresh fish daily for heir support, are creating the greatest excitement wherever they come before the public. They are the first that ever were placed on exhibition in this country under a canvass. Mr. Robinson has experienced the greatest difficulty in keeping them alive, owing to their peculiar nature, adaptation to ocean water and trouble in procuring a Fair on the date named. Such, however, is sufficient quantity of fresh fish. They are onsidered by sailors the most dangerous of all ocean monsters, frequently pursuing the boats of a whaling vessel for miles in order to give battle, and so fierce and warlike are they that it is almost certain death for one. or even two men to be attacked by them while they are in the water. There is, also, a beautiful seal from the coast of Greenland, which Mr. Robinson has procured at great expense, to show the difference between the Seal and the Sea Lion, as well as the difference between the natives of the Atlantic and Pacific Oceans. They will all be in Jackson December 7th
